### **3. INTERNATIONAL NORTHERN AEGEAN GÖMEÇ SCULPTURE SYMPOSIUM PARTICIPANT STATEMENT**

As a result of the invitation letter sent to me by Gömeç Municipality, I accepted this invitation and signed the attached “3rd International Northern Aegean Gömeç Sculpture Symposium specification” with my own will and free will.

By the Gömeç Municipality, instructors, officers, employees and other persons took a tour of all work areas and warned about the possible risks and measures to be taken by showing the tools and equipment tools that are available and that can be found during the work. For this reason, I undertake that I will not take part outside of my field of work during my work and I will act cautiously in matters related to the field of work that has been described to me.

I am aware of the risks that may arise during my participation in the 3rd International Northern Aegean Gömeç Sculpture Symposium. I have sufficient physical conditions to take part in this symposium that requires physical activity. I am aware that there will be fast rotating wheels, heavy marble blocks and tools and equipment that can carry many dangers in the working environment. I take the responsibility to protect myself from these dangers.

I know that I have a valid personal accident insurance during the symposium and during working hours, but this institution does not have any drug or medical assistance responsibility against me. I accept and declare that I am responsible for the costs arising from health problems that may arise during my participation.

I have read and accept the 3rd International Northern Aegean Gömeç Sculpture Symposium Conditions of Participation and the Symposium Participation Specification.
